

Australian High-Speed Optical Cable

Overview

Telstra InfraCo's Aura Network is designed to deliver high-performing, ultrafast connectivity between Australia's cities and remote regions. It highlights the critical role of digital. AFL's portfolio of fibre optic cable products is unmatched. Beginning with optical ground wire (OPGW), introduced in 1984 as AFL's flagship product, the line now spans to fibre optic cabling solutions being used in the world's harshest environments, including those above ground, below ground and. Today, we're excited to officially launch the Sydney to Melbourne coastal route of our new fibre backbone – the Aura Network. When I set foot in Kalgoorlie in my first few weeks as InfraCo's new CEO, I was struck by the sheer scale of our country and the ambition of what we're building. We also own and operate spectrum on the Indigo submarine cable system connecting Sydney to Perth (Indigo Central), which provides an additional link between the east.
