

Cable tray production and supply in West Asia

AI Overview

West Asia relies heavily on Asian manufacturers for high-quality cable trays, with China, India, and other Asian countries serving as major production and supply hubs. Key Manufacturers and Suppliers

China is a leading producer of cable trays, offering a wide range of products including perforated trays, cable ladders, trunking, strut channels, and fittings. Companies like Shandong Tianhong Electric Power Technology Co., Ltd. and Shandong Jinheng Electric Co., Ltd. (JLH Cable Tray) provide automated production, OEM/ODM services, and export globally, including to West Asia. Their products are made from materials such as SECC, SGCC, stainless steel (SUS201/304/316), PVC, and GRP, ensuring durability and compliance with international standards. India also has reputable suppliers like Brilltech Engineers Pvt. Ltd., offering galvanized steel, stainless steel, and fiberglass trays. They emphasize airflow, cable protection, and easy installation, making them suitable for industrial, commercial, and infrastructure projects. Other Asian countries, including Indonesia, Malaysia, Vietnam, and the Philippines, have growing cable tray industries. Indonesian manufacturers such as Jaya Bersama Sentosa (JBS) and Baja Karya (BAKA) specialize in heavy-duty, corrosion-resistant trays for oil and gas, telecommunications, and construction sectors.

Product Types and Materials

Cable trays supplied to West Asia include:

- Cable Ladders:** For heavy-duty cables with high load capacity, available in steel, aluminum, and FRP fiberglass.
- Perforated Trays:** Promote ventilation and prevent overheating, suitable for indoor and data center applications.
- Wire Mesh Trays:** Lightweight, flexible, and easy to install for commercial wiring projects.
- Cable Trunking and Strut Channels:** Enclosed or open systems for organized cable routing and structural support.
