

Custom Cable Mesh Tray Quotation

AI Overview

You can request a wire mesh cable tray quotation by providing specifications such as dimensions, material, finish, and quantity to suppliers like MP Husky, Patil More Exports, or through B2B marketplaces.

How to Request a Quotation

Provide Detailed Specifications Include the width, height, and length of the trays, the material (stainless steel SS202, SS304, SS316, or galvanized steel), and any custom shapes or bends required for your installation.

Quantity and Project Scope Specify the number of trays and whether the order is for a single project or bulk export, as this affects pricing and lead time.

Certifications and Standards Ensure the trays meet IEC 61537 standards or other relevant certifications, especially for industrial or export projects.

Accessories and Installation Needs Include any supports, connectors, or bends needed for assembly, as suppliers often provide these as part of the quotation.

Recommended Suppliers

- MP Husky:** Offers a dedicated quote request form for wire mesh cable trays and will provide a detailed estimate after submission.
- Patil More Exports:** Specializes in customizable trays with flexible sizes, durable finishes, and full certification. They handle bulk orders and can match your drawings for precise requirements.
- Europages:** A B2B marketplace listing 32 suppliers for custom-made galvanized mesh cable trays, allowing direct contact for quotations.
- Alibaba / Ningbo Lepin Network:** Provides price lists for CE-certified trays, free samples, and options for custom dimensions.

Tips for a Faster Quotation

- Include technical drawings if available.
- Specify delivery location and timeline.
- Clarify load requirements to ensure the tray design supports your cables.
- Ask for sample trays if quality verification is needed before bulk purchase.

By providing these details, suppliers can generate an accurate quotation tailored to your project requirements, ensuring compliance, durability, and efficient installation.
