

How to hold the fiber optic cable head

Overview

It is possible to store simplex and duplex type cables and coils with cables up to 4 mm in diameter by laying them on the head. However, the cable has to be fastened by shrink wrap to prevent the loosening of individual cable coils. Avoid Looking Directly Into the Fiber End Face Never stare into the open end of a fiber cable. The light that comes out is invisible yet intense. The information contained in this manual should serve as a guide to proper. These cable management products offer a choice of methods to secure, route, label, and bundle electrical cables and fiber optic patch cables. 1 to quickly navigate the page. Since 1936 Lewis Manufacturing Co. has been striving. Before you connect a fiber-optic cable to an optical transceiver installed in a device, take the necessary precautions for safe handling of lasers (see Laser and LED Safety Guidelines and Warnings).
