

Ireland Steel Cable Tray Price Inquiry

AI Overview

Steel cable trays in Ireland typically range from €15 to €80 per meter, depending on type, size, and load capacity.

Overview of Pricing

The cost of steel cable trays varies based on several factors:

- Type of tray:** Ladder trays, perforated trays, and solid-bottom trays have different prices. Ladder trays are generally more expensive due to higher material use and load capacity.
- Size and width:** Wider trays (e.g., 300–600 mm) cost more than narrower ones (e.g., 100–200 mm).
- Material and finish:** Galvanized steel or stainless steel trays for outdoor or industrial use are priced higher than standard indoor steel trays.
- Accessories:** Supports, joints, connectors, and clips add to the overall cost of installation.

Typical Price Range

- Small indoor steel trays (100–150 mm width): €15–€25 per meter
- Medium trays (200–300 mm width): €25–€45 per meter
- Large or heavy-duty trays (400–600 mm width, galvanized or stainless steel): €50–€80 per meter

These prices are indicative and may vary depending on the supplier, quantity, and delivery options. Suppliers in Ireland include Electrical Wholesaler Ireland, Dwyers Electrical, RS Online Ireland, National Electrical Wholesalers, and GroupSumi, all of which offer a range of steel cable trays suitable for domestic, commercial, and industrial installations.

Additional Considerations

- Bulk orders:** Purchasing in larger quantities may reduce the per-meter cost.
- Delivery and installation:** Some suppliers offer delivery and installation services, which can affect the total project cost.
- Outdoor vs indoor use:** Outdoor trays require weather-resistant finishes, which increases the price.

For precise pricing, it is recommended to check the suppliers' online catalogues or request a quote directly, as prices fluctuate with market conditions and material costs.
