

On-site lighting construction power distribution box

Overview

Explore linkable string lights for broad area illumination, rugged distribution boxes, and panel-style outlets designed to withstand jobsite conditions. Each section includes practical details to help you compare performance, installation, and safety features at a glance. These versatile units work great for construction sites, entertainment events, and disaster recovery operations. They handle everything from simple 120/240V single-phase loads to powerful. These power boxes provide power where there is limited space and are a highly durable solution thanks to their robust construction for worry-free portability. On a construction site, outdoor exhibition area, municipal repair project, or temporary industrial workspace, electricity is constantly moving with the job. Workers need power for tools, lighting, pumps, welding equipment, lifting devices, testing instruments, and temporary offices. WIV DISTRIBUTION BOXES MAXIMUM FLEXIBILITY + MOBILITY.
